

QUALITY and FOOD SAFETY POLICY

Sides produces Heads for Disposable Siphons with the Primary Objective of accomplishing the needs and requirements already defined and agreed with our clients; as well as the Legal and Obligatory Requirements applicable to our Products and Processes.

Based on the Strategic Management of the Company and the awareness of our Organizational Context we have established, implement and certified an Integrated Management System for Quality – Food Safety, which accomplish the requirements of the Regulations ISO 9001 and FSSC 22000. Looking for the excellence of these through the usage of measurable Objectives that provide the needed information for its continue maintenance and continuous improvement.

We search and require the constant compromise and participation of our Employees and Suppliers, motivating and encouraging their formation, awareness and improvement in the require skills.

Our Company ensures the employee´s basic rights, obeying the requirements stablished in the applicable Social Responsibility Regulations, Laws and Orders.

We promote a Decent, Healthy and Safe work environment, in which the flowed intern and extern communication with all the Interested Parts turns out to have a fundamental role.

The implementation and application of these ideas, together with its continue improvement and adaptation, stablish the bases for our growth.

Héctor Goizueta
General Manager
