

# **WE KNOW HOW**

#### **Our Mission:**

Provide the carbonated beverage's market with **Heads for Disposable Siphons** and all the necessary equipment for its optimal application and use.

#### **Our Vision:**

Be the leading Company in the supply of Heads for disposable siphons; and being the undeniable referents for the actualization and made of machines and equipment for adaptation of any filling lines for carbonated beverages to the production of Disposable Siphons

## **Our Values**

#### **Quality:**

Our primary Objective is the complete fulfil of our clients and consumer's needs, expectations and requirements; understanding these and always working to outdo the already set goals.

We accept and obey every legal normative that is currently obligatory and applicable to the product

#### Security:

We consider that no matter how urgent a task may be, it must always be done under safety regulations.

We value and protect the health and life of all our workers; that is why we prevent and eliminate every potential and real risk from every position that they execute. Including transport from and to their homes.

### Food Safety:

Acknowledging the importance of producing innocuous products and the necessity of implementing management systems that might guarantee these, our company actively incorporated the food safety's philosophy in all the steps of our productive process.

#### **Environment:**

We promote a reasonable and efficient use of natural resources while realizing all our activities in a sustainable way and minimizing to its maximum the environmental impact that these might cause.

Our company respects the environmental legislation applicable to our activities and is completely conscious about the necessity of taking care of our surroundings

#### Social Responsibility:

Our Company ensures the employee's rights, obeying the requirements stablished in the applicable Social Responsibility Regulations, Laws and Orders.

We provide a healthy, secure and pleasant work environment, looking for the belonging feeling in all our collaborators.
